JORDAN APPLESON

A JOURNEY THROUGH BIG DATA

Jordan takes us through his learnings of NoSQL databases, coming from a relational world. Mainly focusing on MongoDB but touching on technologies such as Hadoop and Cassandra.

LEE BROOK

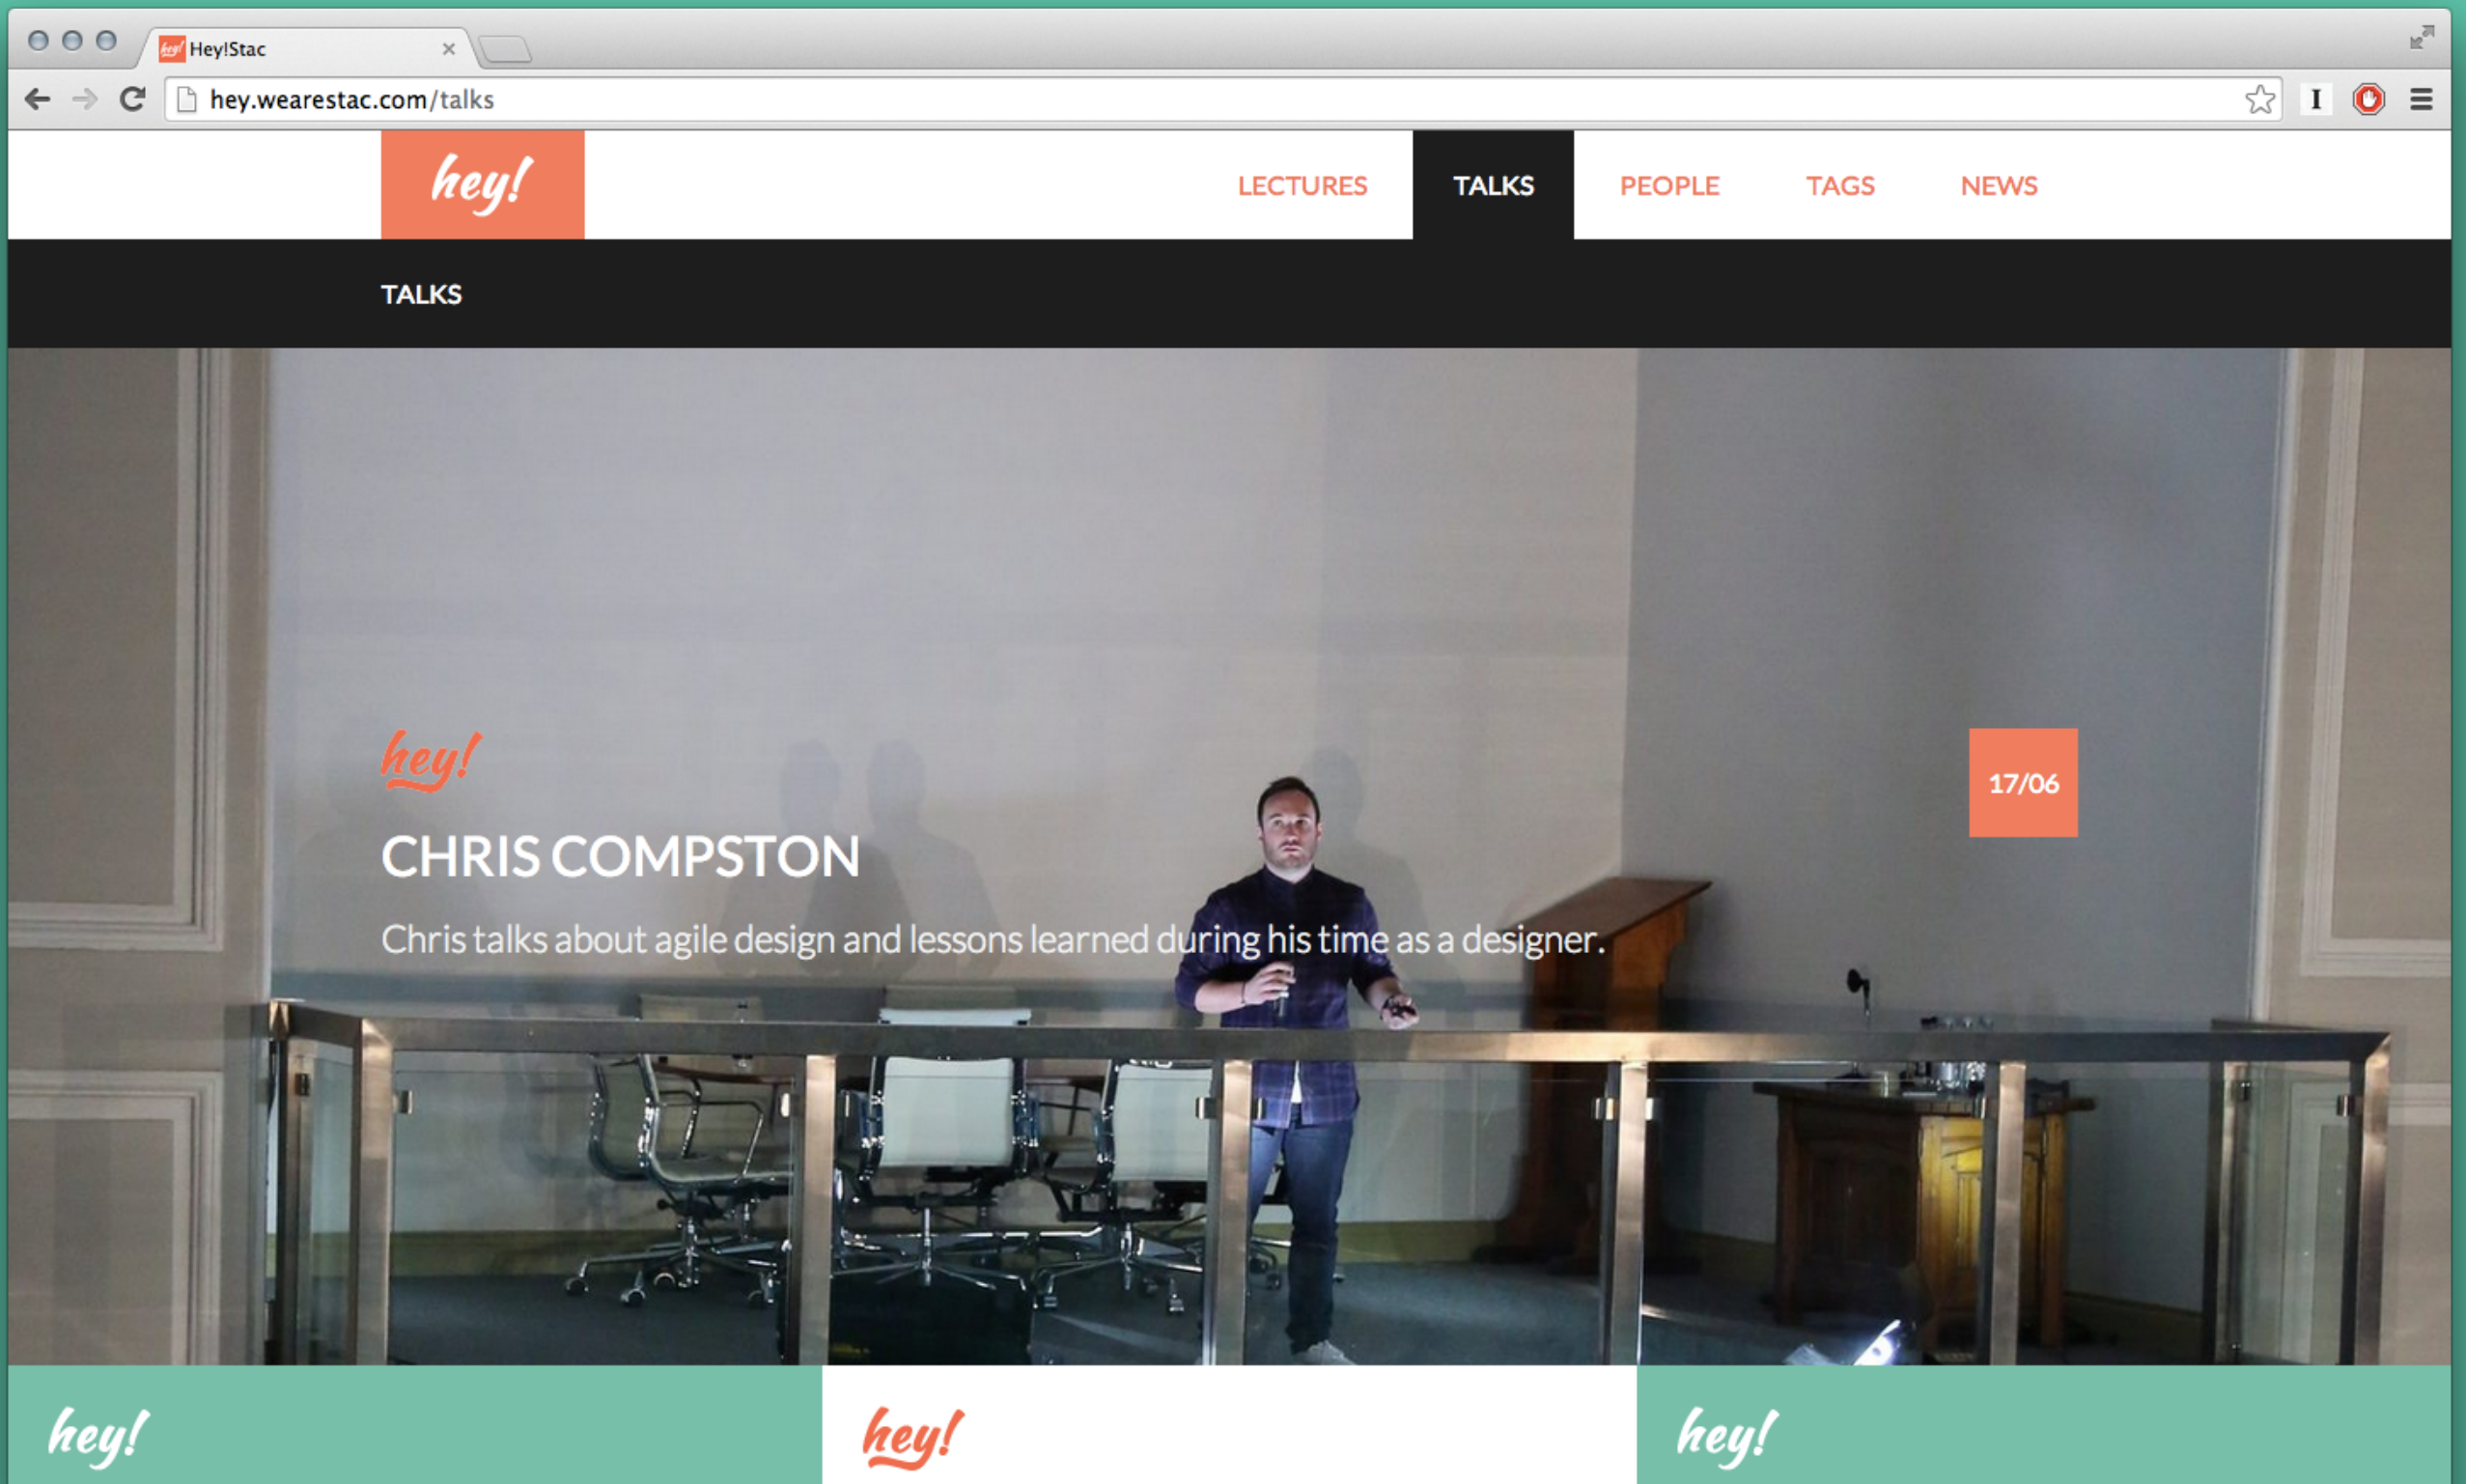

...AND WHY THAT'S NOT IMPORTANT.

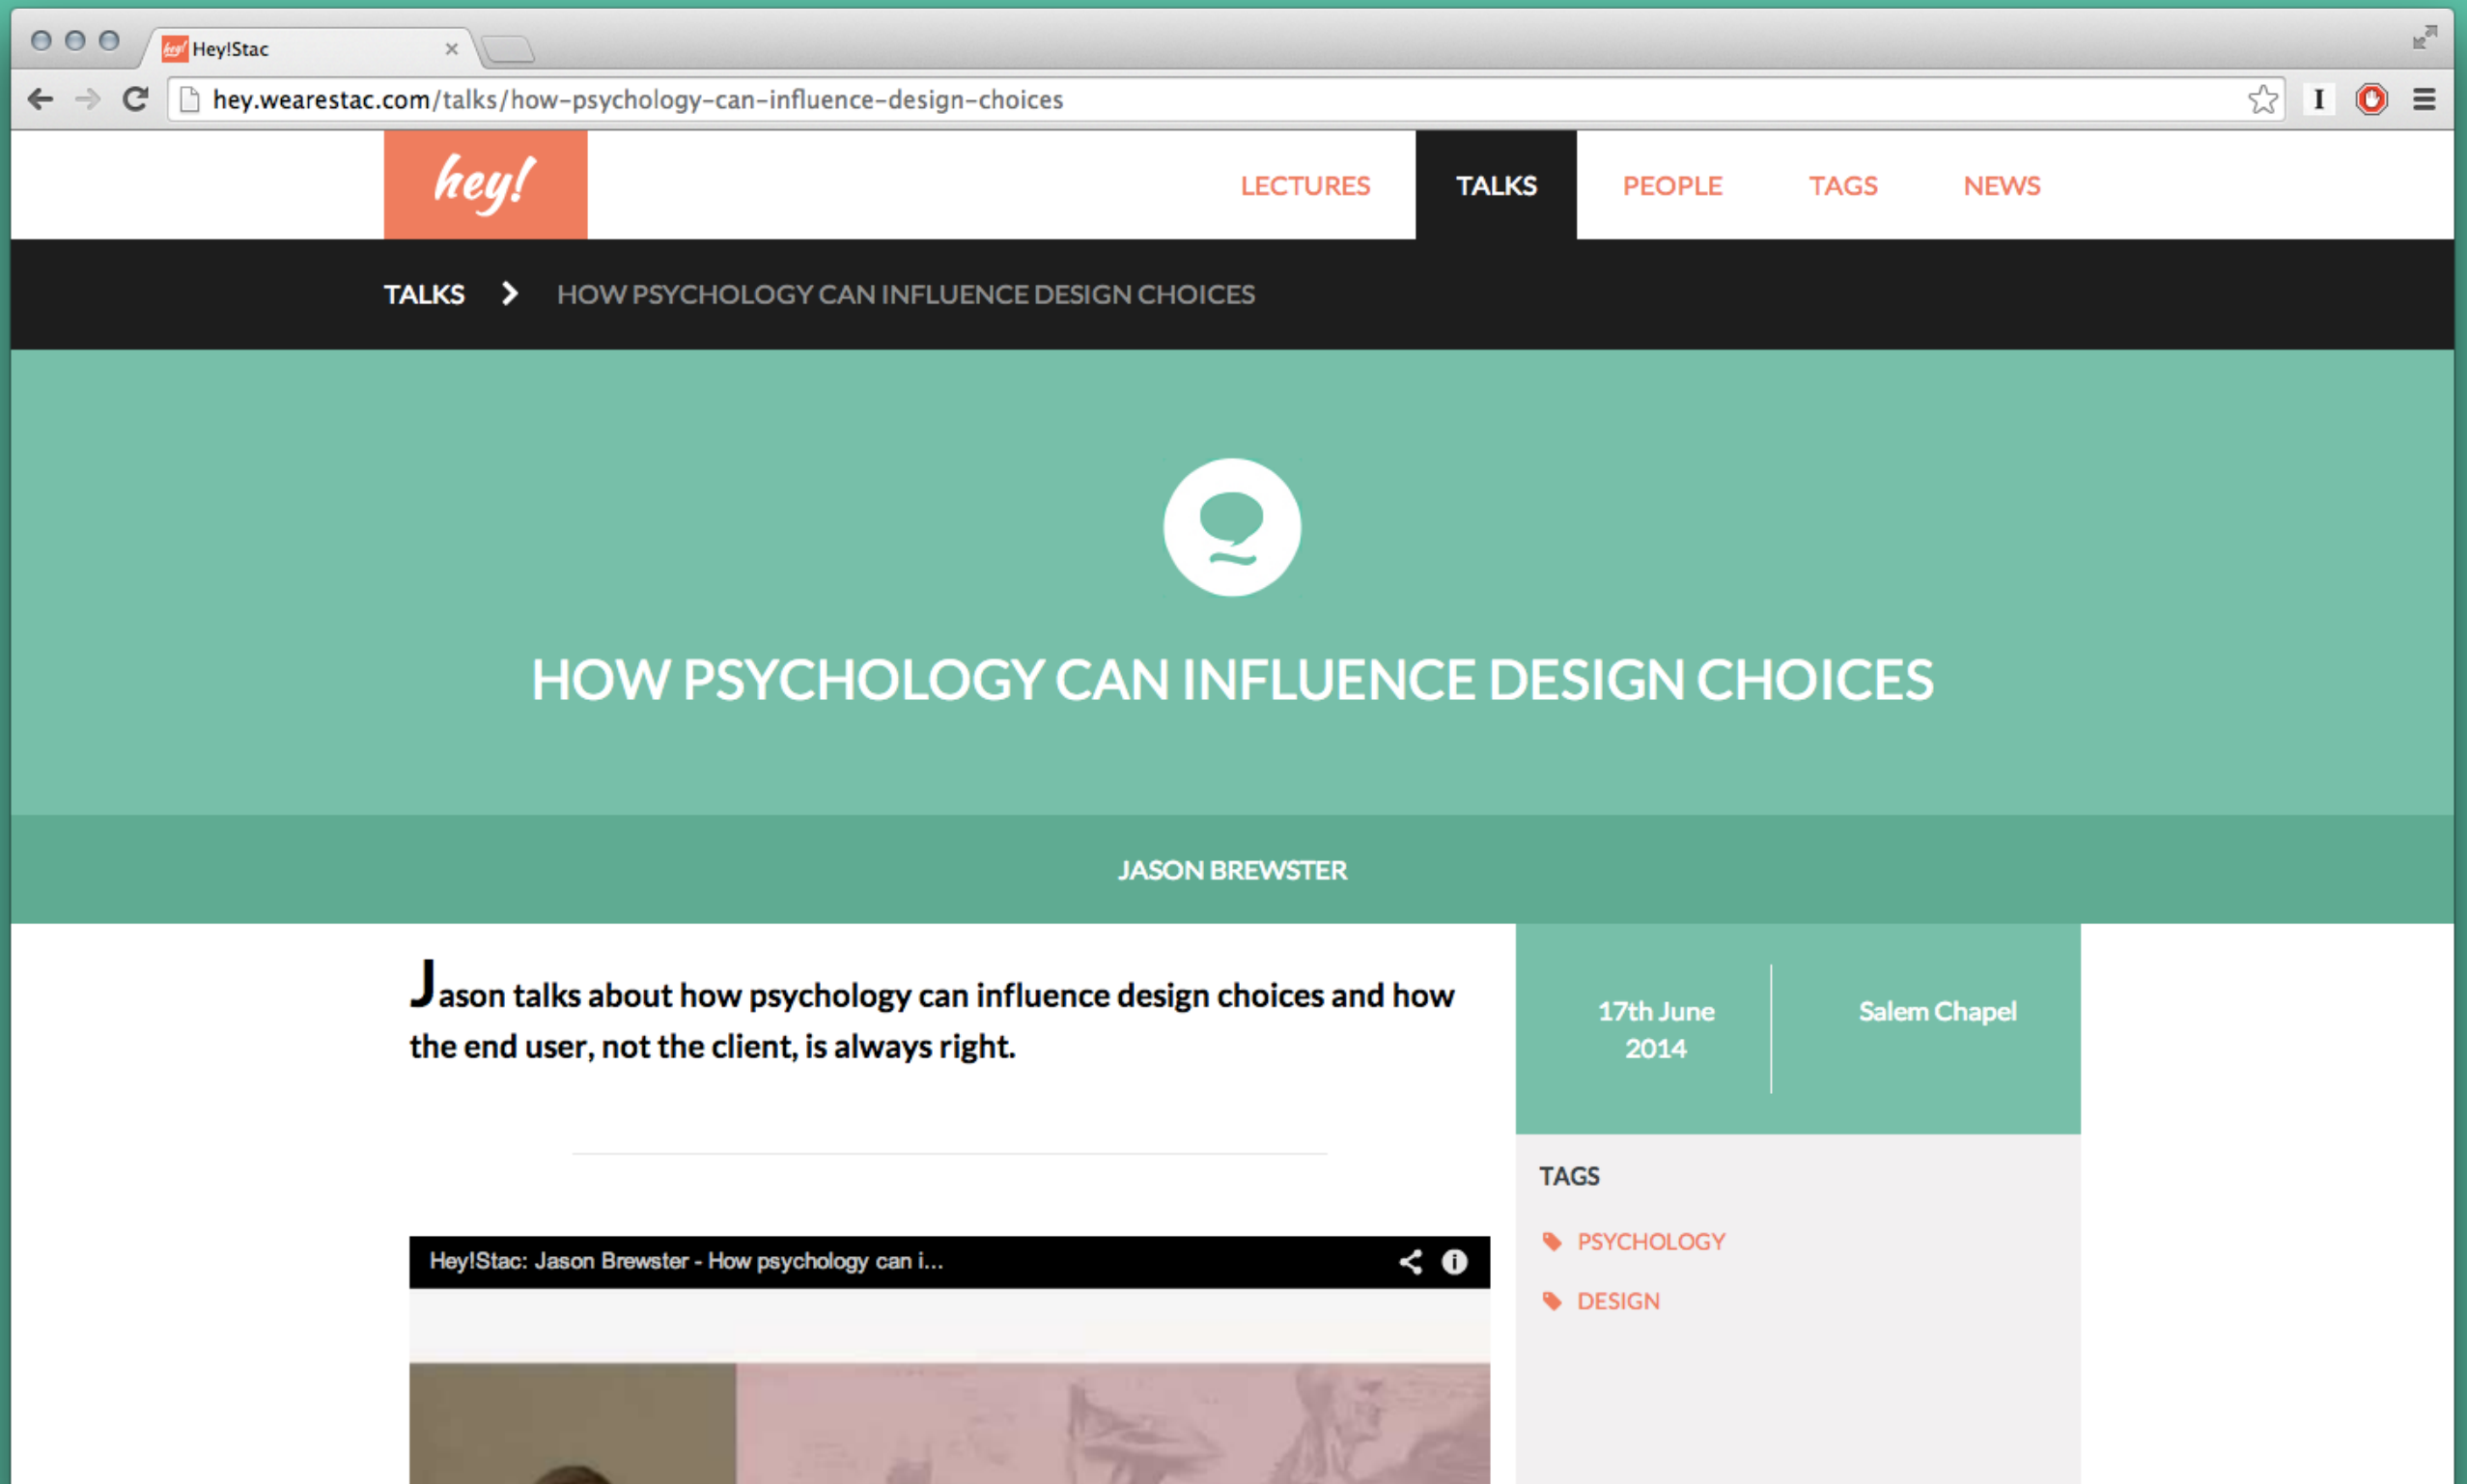

Lee exposes the secret to productivity and efficiency by explaining how over thinking certain decisions is detrimental to getting things done.

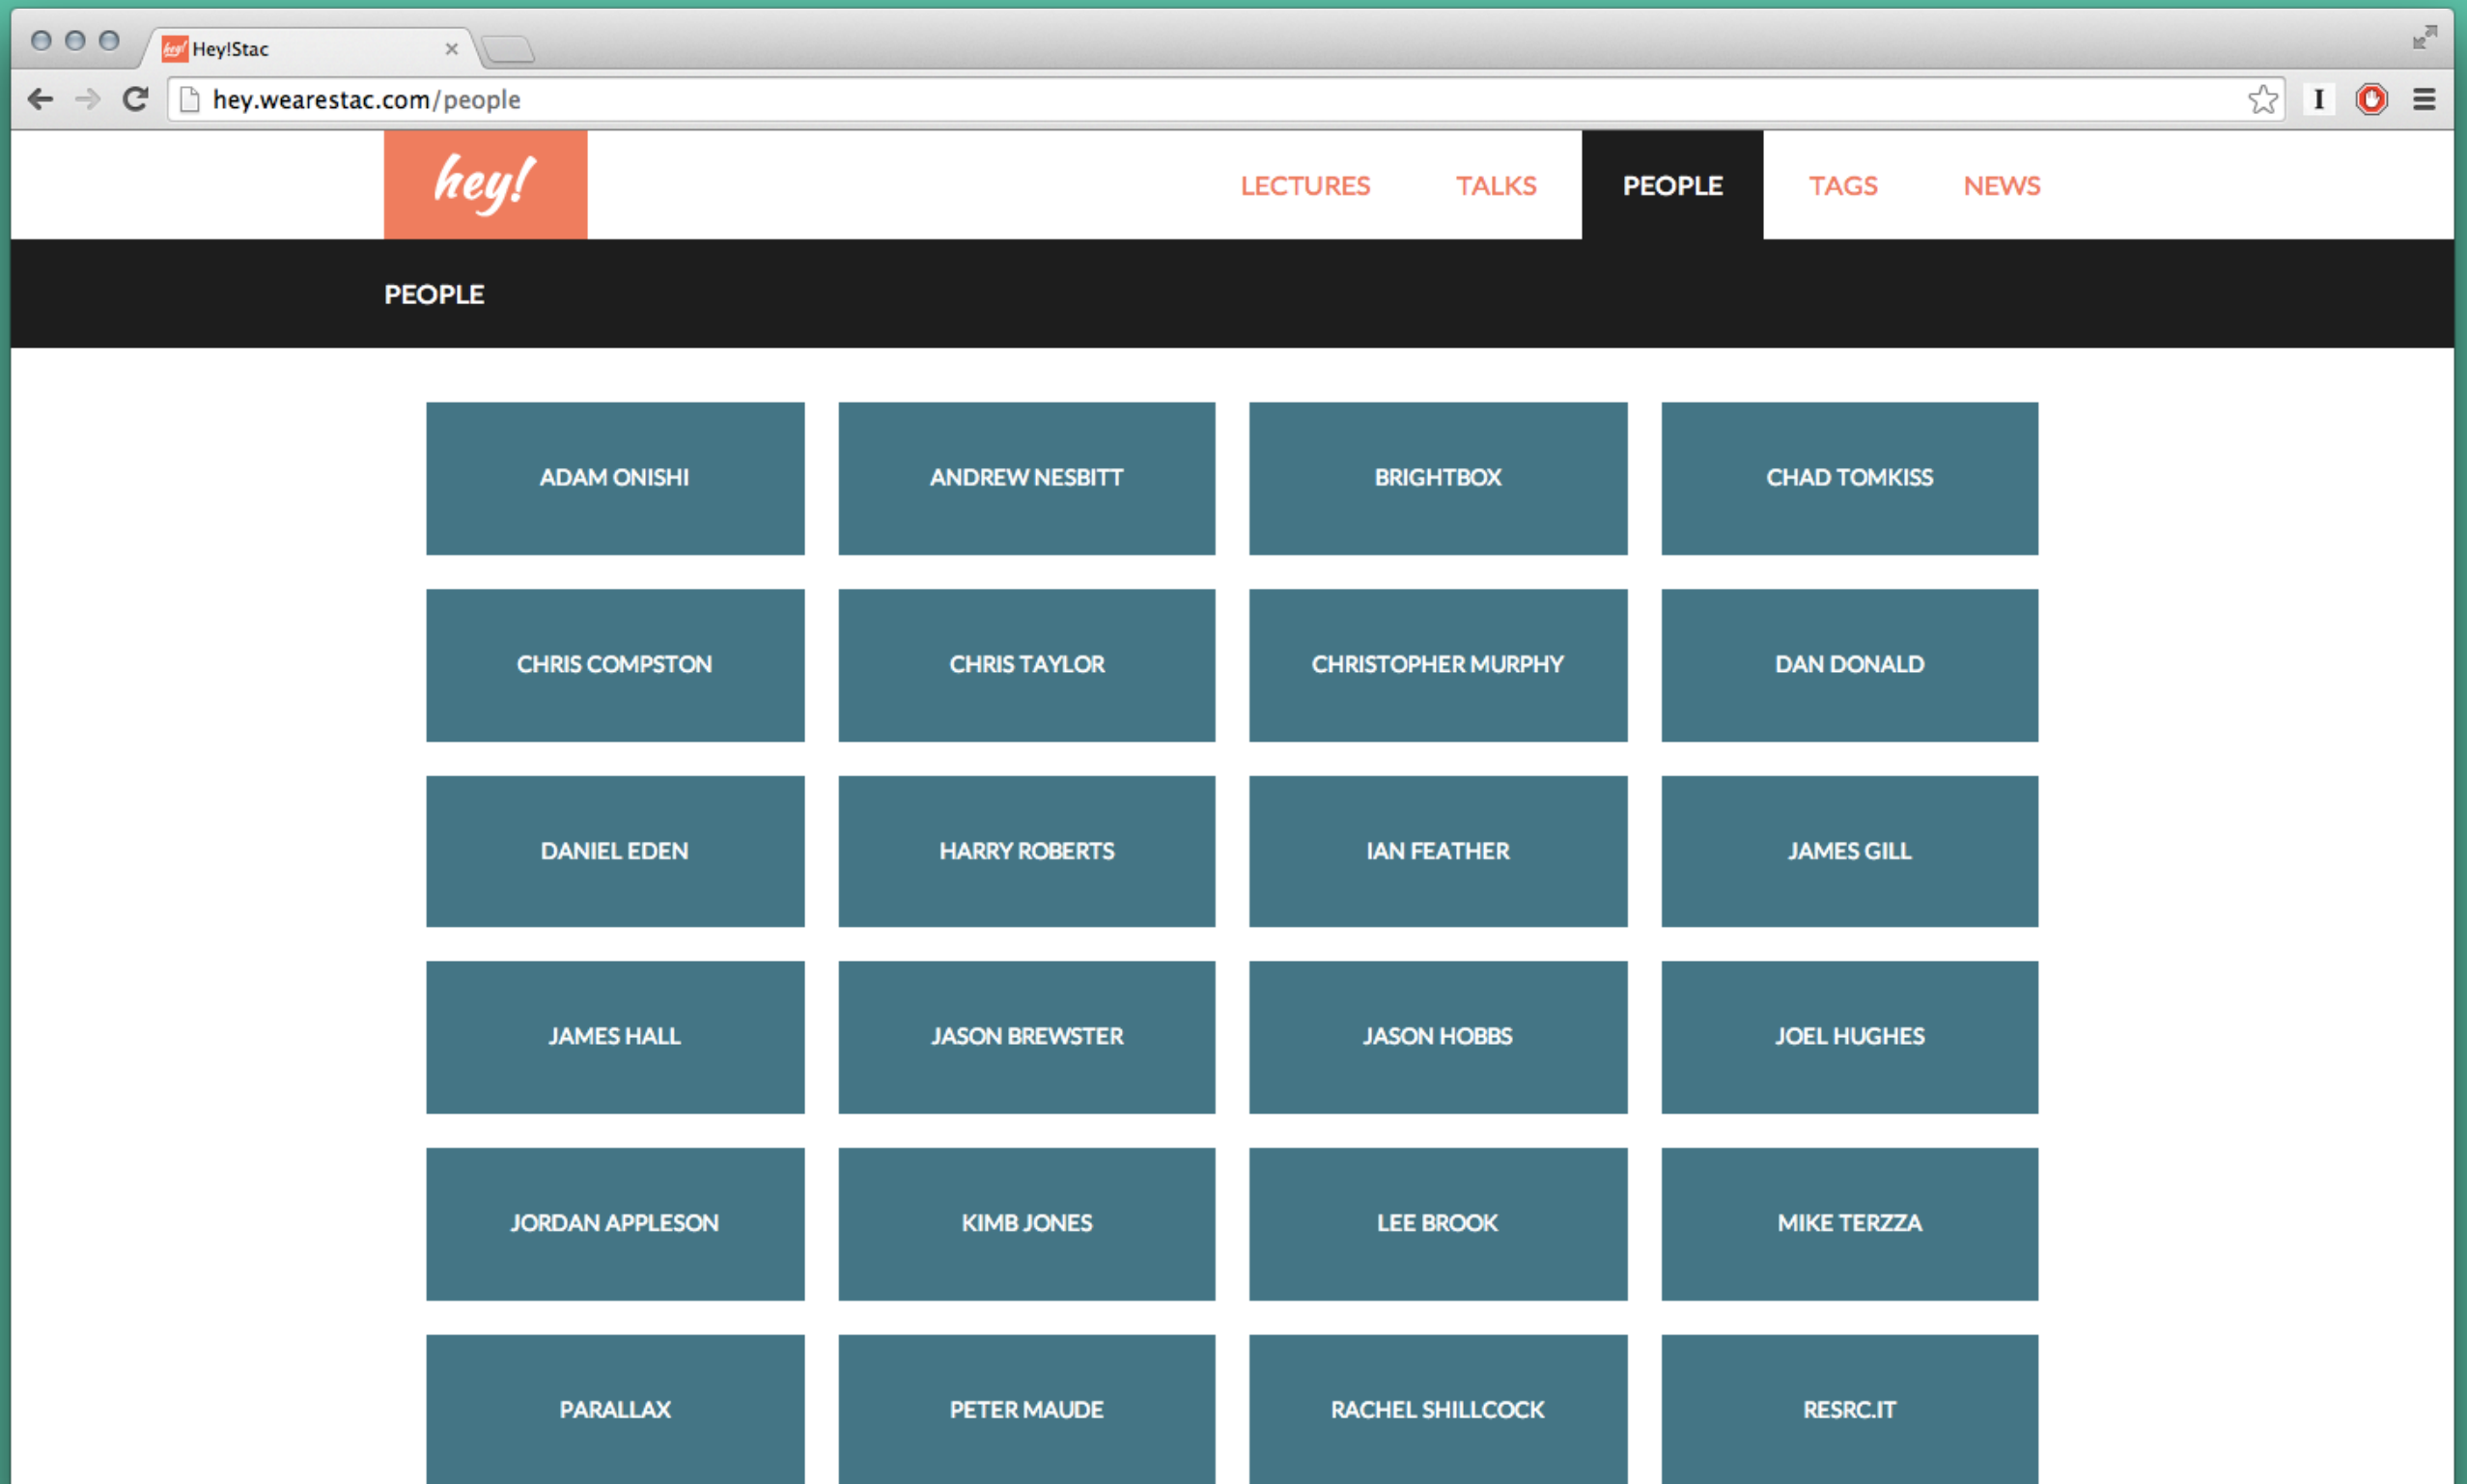

MIKE TERZZA

STAYING MOTIVATED ON SIDE PROJECTS WITH TOUGH DEADLINES

Mike explains the key to keeping motivated when working on side projects for personal gain.
